

ST. GEORGE CALIFORNIA CITRUS VODKA

WHAT'S IN IT California-grown Valencia oranges, Seville oranges, and bergamot

HOW IT'S MADE We infuse the three types of citrus peels (Valencia orange, Seville orange, bergamot) separately into non-GMO grain neutral spirit and then distill each of those infusions separately. We blend all three distillates together, then filter the resulting vodka to remove visible impurities before bottling.

TASTING NOTES Astonishingly clear citrus flavor, genuinely tasting of both sour and sweet orange. Redolent of the whole citrus plant, with focus on the bright peel characteristics. Tart almost lemony scent in the nose.

WHAT THEY'RE SAYING

A rare gem of a citrus flavored vodka. Nothing short of brilliant. — *Spirit Journal*

The scent has all the finesse of a fine perfume. Evokes the memory of orange groves and noses pressed against citrus warmed by the sun. You could sip this one straight. — *Los Angeles Times*

Fragrant with fruits and blossoms, yet remains restrained and modest. — *Wine & Spirits Magazine*

A winner. The nose is a blast of fragrant citrus, and the finish is fresh orange with only a hint of sweetness. — *Paste Magazine*

Fruity and floral... with a slightly bitter touch of citrus rind, as well as twinges of tart and herbaceous notes—all while remaining plenty juicy. — *Supercall*
